P10. This is a short test of perceptiveness. **[Show item A]** In the upper part of each page of the test you have a pattern with one part missing. You need to choose an image to fill in the missing part that fits the pattern in both the vertical and horizontal direction. Only one image is the correct one. In the first item, the image no.1 fits the pattern, but only in the vertical direction, while image no.4 fits in the horizontal direction, but not vertically. Please find the image which fits in both directions. **[If R has difficulties with giving the correct answer, give a hint or provide it for R].**

The right solution is image number 8 and this is the number that you need to write in the first box. Now do the next item by yourself. **[Show item B]** The correct solution is image number 4 – please write this number in the second box.

The next items are increasingly difficult. However, it is not necessary that you solve all of them – it is important that you understand the problem and attempt to solve as many items as possible. You have five minutes to do that. I will enter the answers you provide in the answer sheet.

Hand R items 1–10. On a separate page write the time of the start of the test. Keep track of the time and note when five minutes have passed. Then write down the following:

- (1) How many items R solved (regardless of whether or not answers were correct) within 5 minutes (not counting items A and B). If R completed the test in less than 5 minutes or if (s)he wants to continue the test after the 5 minutes have passed, allow R to do so and write down this fact;**
- (2) After how many minutes did R return the test to the interviewer (regardless of how many items (s)he managed to solve).**

After the completion of the test, the information described above should be reported in the questionnaire – below:

How many items R processed within the first 5 minutes (without tasks A and B)?

Items [77 – refused]

After how many minutes R returned the test to interviewer?

☛ Thank you very much for this conversation and for answering the interview questions. Because the questionnaire was quite long and contained many detailed items, please allow me to take one more quick look at it to make sure that I did not miss anything.

⇒ *[check whether the questionnaire is fully completed]*

☛ My work, as any other work, is monitored and verified. It may happen that someone from the Institute of Philosophy and Sociology, Polish Academy of Sciences, will want to contact you in person, by phone or by email to check whether my work here was done in accordance with the standards of scientific research. Could you please provide your telephone number (email address)?

1. Yes → *[write down R's phone number (email address) in the Respondent's Form]*

2. No

☛ Our research will be continued. That is why we would like to ask you to grant us a permission to store your full name and address (phone number, e-mail address). You can of course refuse to give us such permission. These personal data are under the strict supervision of the Personal Data Inspector of the Institute of Philosophy and Sociology of the Polish Academy of Sciences. Your personal data will not be shared with anyone and will only be used (if at all) to contact you in a few years in relation to our research.

Instructions for interviewer: Explain R that storing personal data for scientific purposes is in accordance with the current law. Explain also that personal data are stored and protected in a manner required and specified by law, under the supervision of the Personal Data Inspector of the Institute of Philosophy and Sociology of the Polish Academy of Sciences.

Make sure that R has the phone number and e-mail address of the Inspector (included in the interview invitation/announcement letter). If R doesn't have it anymore, make sure (s)he writes it down.

☛ Do you grant the Institute of Philosophy and Sociology of the Polish Academy of Sciences the permission to store your full name and address (phone number, e-mail address)?
